

Renal Laboratory Report

Patient Code	SYN-CSM-001
Document Id	DOC-P1-002
Document Type	Laboratory Report
Document Date	2026-03-05
Upload Date	2026-03-08
Author	Sustha Synthetic Laboratory
Encounter Id	P1-ENC-002
Evidence Ids	EV-P1-003, EV-P1-004

Specimen Information

Specimen collected on 5 March 2026 at 08:15. Report initially released on 8 March 2026.

Results

EVIDENCE ID: EV-P1-003 Serum creatinine: 1.8 mg/dL (high).
EVIDENCE ID: EV-P1-004 Estimated glomerular filtration rate: 42 mL/min/1.73m2 (reduced).

Interpretive Comment

These values suggest worse renal filtration than the January baseline. A later addendum corrects both values; this initial report must remain auditable as superseded evidence.

Synthetic evaluation record - not for clinical use.
