

Dehydration Qualification Note

Patient Code	SYN-CSM-001
Document Id	DOC-P1-004
Document Type	Clinical Note
Document Date	2026-03-04
Upload Date	2026-03-10
Author	Dr. Research Evaluator
Encounter Id	P1-ENC-002
Evidence Ids	EV-P1-006

Clinical Context

EVIDENCE ID: EV-P1-006

The patient reported gastroenteritis, reduced oral intake, and likely dehydration on 4 March 2026, one day before the abnormal renal specimen.

Qualification

The dehydration episode may have transiently influenced the 5 March creatinine and eGFR. This qualifies the abnormal result but does not erase it.

Synthetic evaluation record - not for clinical use.
